

# **Great Momentum Stocks Hall of Fame:**

## **Mark Crisp**

<http://www.stressfreetrading.com>

I have the privilege of catching some of the greatest moves on the U.S. stock market with my Momentum Stock Trading System within the last 8 years or so. It's been amazing to watch my account grow and grow **WHILST ONLY WATCHING** the stock market every few days or so.

**No, watching the quote machine during the day.**

No stressed out by small 5% - 10% daily "shake-outs"

**No worrying about if I should take the quick profits now and run.**

Making the big gains the only way. That is trading stocks for all they are worth. Going for the **BIG** moves not the day-to-day gyrations.

The ease, peace of mind and the time to do what I want whilst watching my stocks sore time and time again has been a joy to behold.

The absolute amazing thing about trading my weekly Momentum Stock Trading system is it gives you the time away from the stock market to do other things. Keep your job until your account is in the high six figures. Keep your finger in other businesses. Minimize the stress and trade the right way!

All these charts are **WEEKLY** charts. You watch it once or twice a week at the most and simply monitor positions. Yes, it really is as simple as that.

## **Method:**

- Find out what the stock market cycle is: (M.S.T.S. tells you this: <http://www.stressfreetrading.com/index2.shtml>)
- Scan for stocks with my screener before Monday opening. Use the simple scan I give you. Ignore **ALL** other stocks. **IF** any show up chart them with my Stress Free End of Day Charting software on weekly charts.
- Wait for a valid buy signal. Submit this order to your broker. **IF** filled place the stop where M.S.T.S. tells you (<http://www.stressfreetrading.com>)
- Now sit back and monitor. **IF** your stop is taken out move on. **IF** the stock goes up (as usual) then simply monitor one or twice a week and trail your stop until stopped out.
- Repeat and watch your account grow.

## **PAST GREAT WINNERS USING M.S.T.S.:**

Mark Crisp  
<http://www.stressfreetrading.com>

All these stocks made me over 100% returns. Some over 200% and occasionally some made over 400%+

Who can forget AMAZON? One of my first great Momentum Trades.
